6. Gym Membership Enrollment - Automation Suite & Workflow Options

Aim

To build and document the automation layer for the Gym Membership Enrollment process using Zoho Creator workflow options, covering form workflows, schedules, approvals, payments, blueprints, batch workflows, report workflows, and functions.

1. Objective

This experiment demonstrates the use of the eight Zoho Creator workflow options for automating the entire gym membership lifecycle, from initial enrollment submission to trainer assignment, fee payment and membership activation.

2. Workflow Mapping Overview

Workflow Type	Configuration / Purpose
Form Workflow	On_Enrollment_Submit_Workflow – triggers a confirmation email to the member and a notification to the front desk upon enrollment submission.
Schedule	Daily_Start_Date_Reminder_Schedule – automates daily reminders to members whose preferred start date is the next day.
Approval	Corporate_Enrollment_Approval – manages the manager-level approval process for corporate enrollments.
Payment	Membership_Fee_Payment_Workflow – handles the automated collection of the membership fee through the payment gateway.
Blueprint	Membership_Lifecycle_Blueprint – establishes a controlled membership lifecycle with defined stages and transitions.
Batch Workflow	Bulk_Renewal_Reminder_Batch – runs nightly batches that flag memberships due for renewal and send reminders.
Report Workflow	OnEdit_Notify_Trainer_Assignment_Workflow – notifies the trainer when an assignment is edited in the Membership_Enrollment_Report.
Function	Generate_Welcome_Letter_Function – reusable Deluge function for automated welcome letter communications.

3. Detailed Workflow Configurations & Evidence

Form Workflow (On_Enrollment_Submit_Workflow)

- **Purpose:** Automatically triggers an email notification to the member and the front desk immediately upon successful creation of a record in the Membership_Enrollment_Form.
- **Action:** Configured with an acknowledgement email action (Send mail to input.Email_Address) and a front desk notification (Send mail to zoho.adminuserid), executed without conditions upon form creation.

Schedule Workflow (Daily_Start_Date_Reminder_Schedule)

- **Purpose:** Runs daily at 10:00 AM to check for members whose Preferred_Start_Date falls on the next day.
- **Action:** Automatically triggers reminder notifications to members and the front desk with joining instructions.

Approval Workflow (Corporate_Enrollment_Approval)

- **Purpose:** Enforces a structured review for corporate enrollment requests submitted via the Membership_Enrollment_Form.
- **Events:** Manages “On Start” and “Level 1 Approver” (Gym Manager) actions, along with distinct branching logic for Approve (sending enrollment confirmation emails to submitters) and Reject outcomes.

Blueprint (Membership_Lifecycle_Blueprint)

- **Purpose:** Governs the progression of memberships through defined lifecycle stages.
- **Stages & Transitions:** Moves records logically across states such as *Enrolled* (Verify_Details), *Verified* (Assign_Trainer), *Trainer Assigned* (Activate_Membership), and finally *Active*.

Batch Workflow (Bulk_Renewal_Reminder_Batch)

- **Purpose:** Executes automated renewal checks across blocks of records (e.g., in batches of 1,000 records) during off-peak hours.
- **Deluge Integration:** Evaluates the start date and plan duration of each membership and flags accounts due for renewal so that reminders can be sent.

Report Workflow (OnEdit_Notify_Trainer_Assignment_Workflow)

- **Purpose:** Runs when a record is edited from the Membership_Enrollment_Report and notifies the assigned trainer about the updated member details.

Function Implementation (Generate_Welcome_Letter_Function)

- **Purpose:** Uses confirmed field link names (Member_Name, Email_Address, and Membership_Plan) to fetch enrollment records by ID, validate parameters, and send a structured welcome letter.

Screenshots:

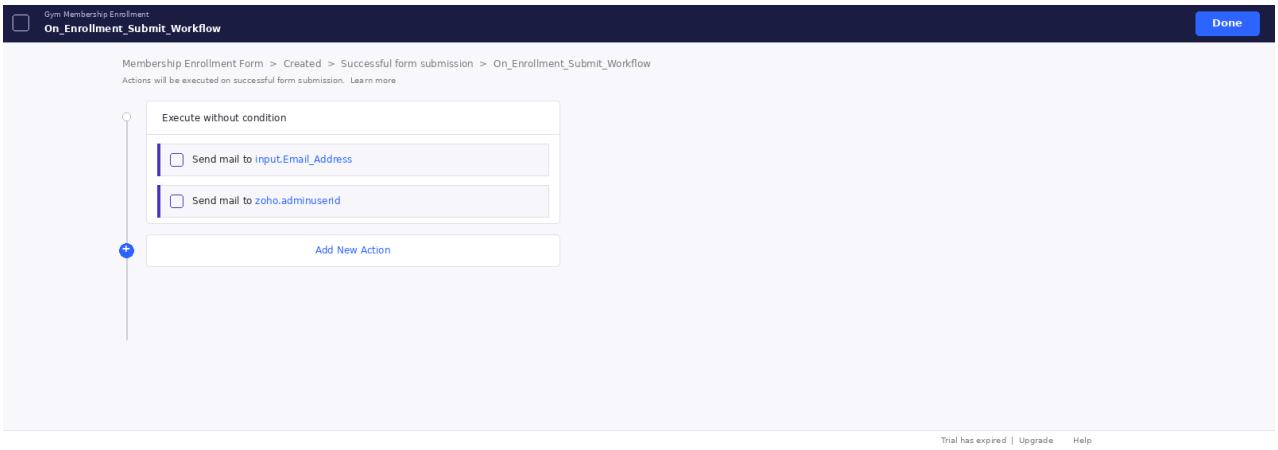

Figure 1 – Form workflow action: acknowledgement email configured for successful submission.

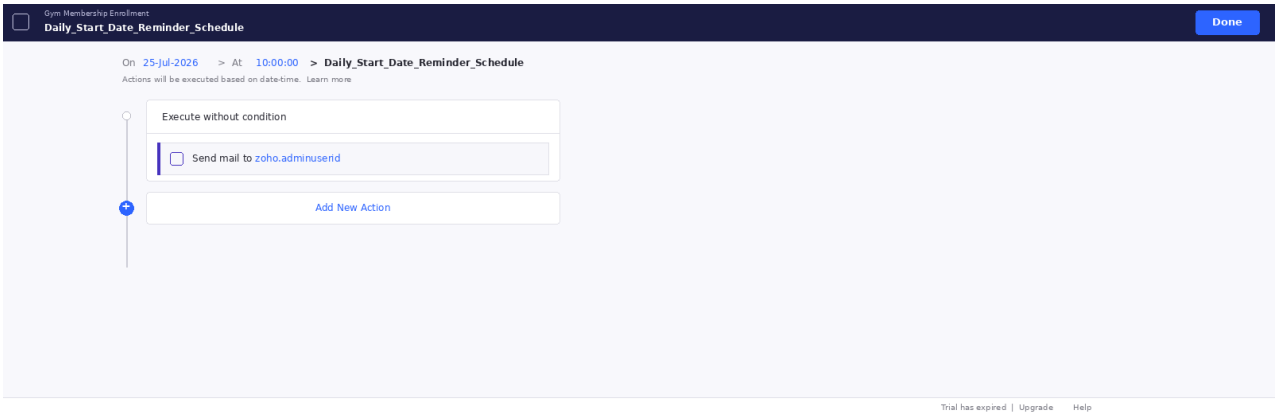

Figure 2 – Schedule workflow: Daily_Start_Date_Reminder_Schedule configuration.

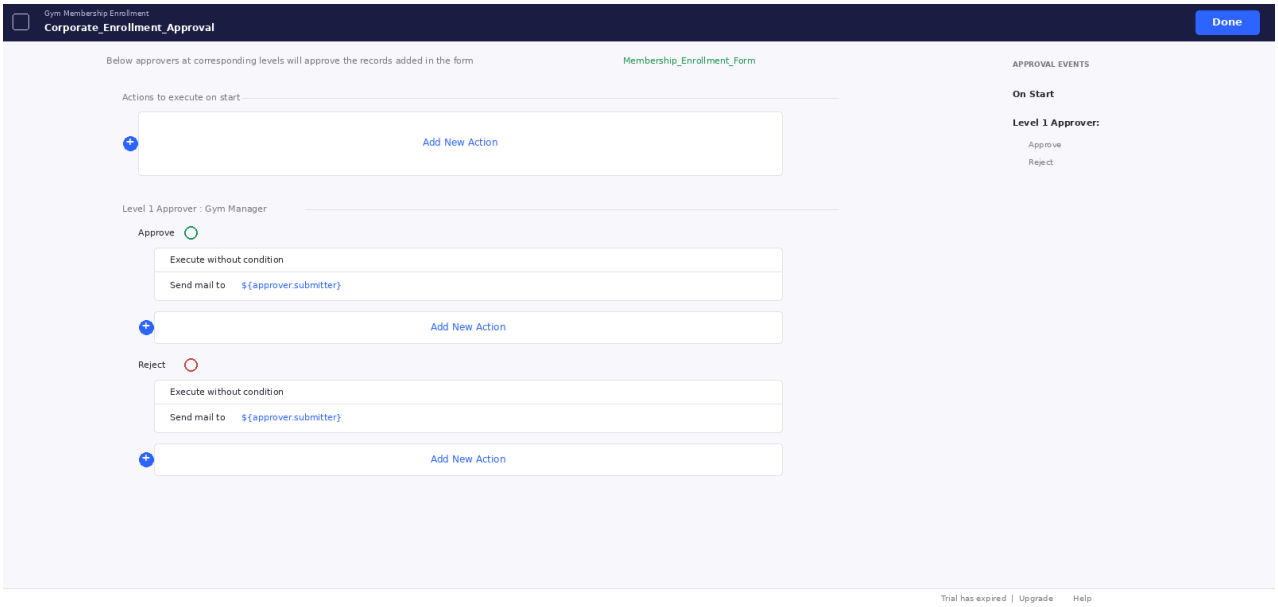

Figure 3 – Approval workflow: Corporate_Enrollment_Approval with approve/reject events.

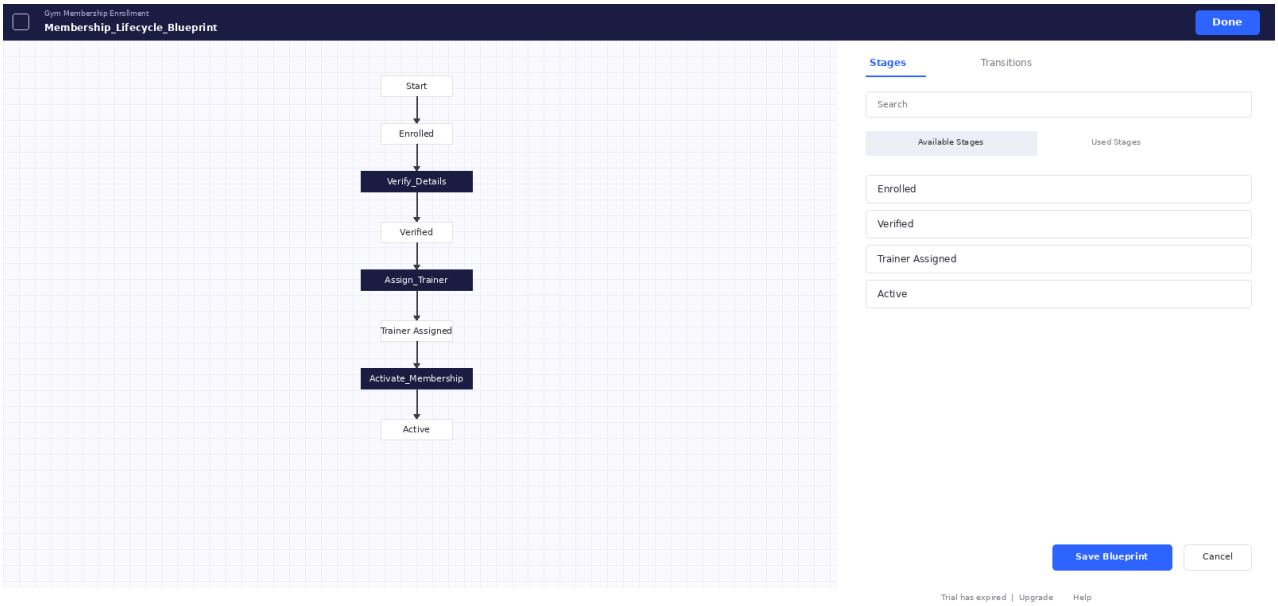

Figure 4 – Blueprint: Membership_Lifecycle_Blueprint showing stages and transitions.

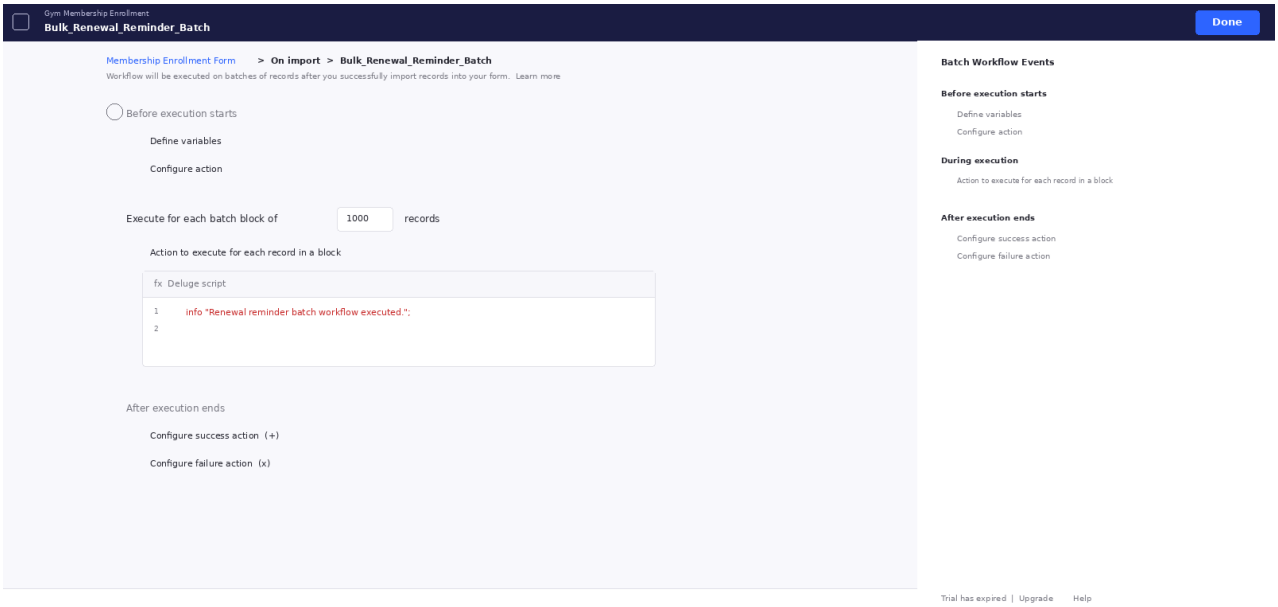

Figure 5 – Batch workflow: Bulk_Renewal_Reminder_Batch with batch execution and Deluge action.

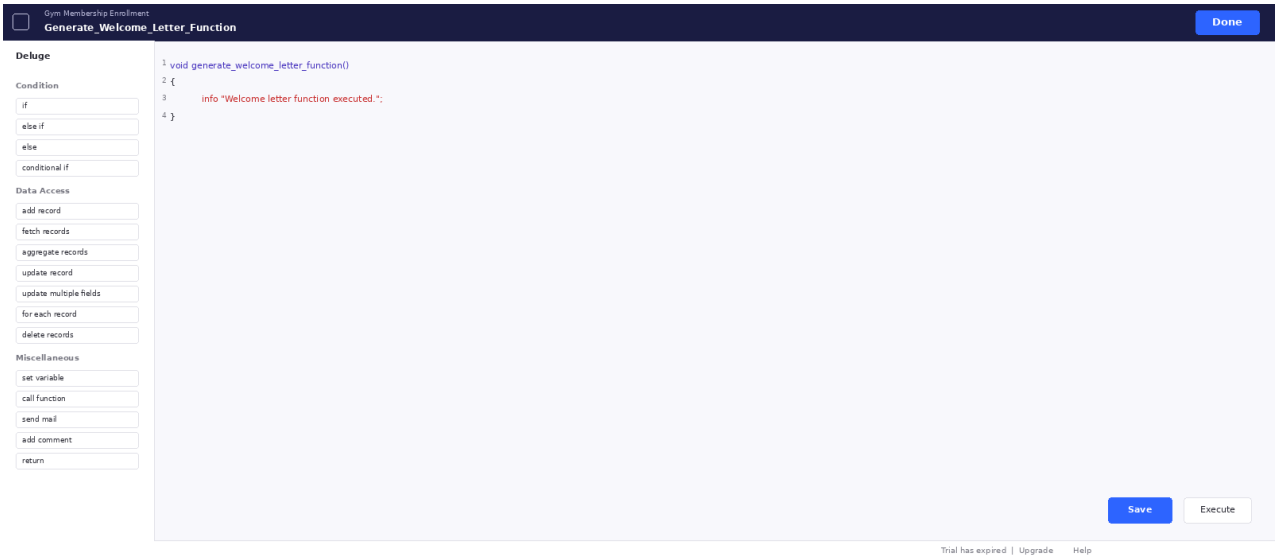

Figure 6 – Function: Generate_Welcome_Letter_Function with Deluge implementation.

Result

The **Gym Membership Automation Suite** was successfully designed, configured, and documented using Zoho Creator’s advanced workflow builder framework, covering form triggers, schedules, approvals, blueprints, batch processing, and custom Deluge functions tailored specifically to gym membership operations.
